📍 Poland

👤 Professional Summary

Platform engineer with 10+ years of experience building and operating production infrastructure. Strong in Go services, Kubernetes and OpenShift platforms, CI/CD, and cloud automation on GCP. Comfortable moving between backend development and infrastructure work : designing reliable systems, improving delivery pipelines, and simplifying complex engineering platforms.

🎯 Target Positions

Platform Engineer / Infrastructure Engineer

DevOps Engineer

Backend Developer (Go)

Software Engineer, Infrastructure

🔧 Technical Skills

Programming	Proficient in Go and its ecosystem ; experience with C++
Linux and operations	Bash, coreutils, Ansible, RHEL, NixOS, Debian
Containers and platforms	OpenShift, Kubernetes, OCI containers, Docker, cloud-native platform operations
Backend and APIs	gRPC, Protobuf, distributed services
CI/CD and GitOps	Jenkins, Zuul CI, ArgoCD, FluxCD, Bazel, Gerrit, Cloud Build
Cloud and infrastructure	GCP, Terraform, production troubleshooting, performance analysis

🏢 Work Experience

Present Dec 2022	System Engineer, EPAM Systems, Poland ➤ Develop Go microservices with a focus on reliability, maintainability, gRPC APIs, and test coverage. ➤ Manage build systems and cloud resources across large engineering projects. ➤ Improve infrastructure automation and developer workflows around Bazel, Gerrit, Terraform, Cloud Build, and GCP. BazelGerritTerraformCloud BuildGCPGoProtobufgRPC
Oct 2022 May 2021	DevOps Engineer, Sberbank, CIB, Kazakhstan ➤ Operated Linux and OpenShift infrastructure for containerized services. ➤ Built observability flows across metrics, logs, dashboards, and alerting. ➤ Led GitOps and platform delivery initiatives using Helm, ArgoCD, Jenkins, and Ansible. OpenShiftHelm/HelmfileArgoCDJenkinsAnsibleKafkaELKPrometheus/ThanosAlertmanagerGrafanaRHEL
May 2021 Dec 2014	Programmer / System Administrator, Polpharma, SA, ➤ Built internal business applications and backend APIs with Python. ➤ Administered Linux servers, load balancing, monitoring, and containerized deployments. ➤ Maintained SAP ERP and Oracle database environments, including availability and performance work. ➤ Supported data processing pipelines using Hadoop and ETL tooling. Docker SwarmPythonHAProxyNginxAnsibleHadoopOracle RDBMS SAP ERP
Oct 2014 Nov 2012	Developer, openerp.kz, LLP, Kazakhstan ➤ Developed backend services using Python web and asynchronous frameworks. ➤ Implemented embedded Linux integrations on Raspberry Pi with peripheral devices. TwistedasyncioCLinux
